Professional Service Awards to John Bloom, Robert Rencken, Timothy Thomason, Claudia Roels and Ron Monachelli.

Gibson and Mitchell (2003) wrote, “In 1996 the U. S. Congress passed the Mental Health Insurance Parity Act (effectively January 1, 1998), which is very significant to mental health professionals. This act prevented health plans from placing unequal caps on dollar amounts covering mental health services if these same caps are not placed on the coverage for other medical services. This legislation was a major step by mental health counselors. In 1998, another significant congressional act was the Health Professions Educational Partnership Act, which recognizes professional counselors who are trained in various mental health professional training programs, including counseling students in counselor education programs. More specifically, these education programs may be eligible for the various programs operated by the federal Health Resources and Services Administration and the federal Center for Mental Health Services.

The Friend of Counseling Award went to Dr. David Williams, Executive Director of the Center of Excellence in Education, for his support of the NAU graduate program in counseling and for his support of elementary school counseling while superintendent of the Flagstaff schools.
A professional service award was presented to John Bloom in recognition of his fifteen years of continuous service to AZCA. A similar award was presented to Dr. Tim Thomason of NAU’s Institute for Human Development for his service as editor of the AzCA journal the past two years. Dr. Ade Santana presented a program on multicultural counseling. David Shuff became a part-time member of the NAU Educational Psychology faculty. John Bloom was AACD Licensure Chair, a member of the AACD Professionalization Committee and AZCA Post Secondary VP.
